Susto, also known as "fright," is one of the common folk illnesses seen in the Latino population. Illnesses from susto are believed to result from a shocking, unpleasant, or frightening experience that is believed to cause the soul to leave the body.

Susto: Acknowledging Patients' Beliefs about Illness

journalofethics.ama-assn : article : susto-acknowledging-patients-belie...

Susto can be healed by praying, taking herbs, visiting a curandero (folk healer), drinking holy water with herbs, or talking with a psychologist.

Susto can be healed by praying, taking herbs, visiting a curandero (folk healer), drinking holy water with herbs, or talking with a psychologist.
