The Amityville Horror is a 2005 American supernatural horror film directed by Andrew Douglas and starring Ryan Reynolds, Melissa George, and Philip Baker Hall. It also featured the debut of actress Chloe Grace Moretz. Written by Scott Kosar, it is based on the novel The Amityville Horror by Jay Anson, which was previously adapted into the 1979 film of the same name, while also serving as the ninth film in the Amityville Horror film series, which documents the experiences of the Lutz family after they move into a house at 112 Ocean Avenue, Long Island. In 1974, real-life mass murderer Ronald DeFeo Jr. killed six members of his family at the same house in Amityville, New York.

MGM claimed the remake was based on new information uncovered during research of the original events, but George Lutz later claimed nobody ever spoke to him or his family about the project. When he initially heard it was underway, his attorney contacted the studio to find out what they had in the planning stages and to express Lutz's belief they didn't have the right to proceed without his input. Three letters were sent and none was acknowledged. In June 2004, the studio filed a motion for declaratory relief in federal court, insisting they had the right to do a remake, and Lutz countersued, citing violations of the original contract that had continued through the years following the release of the first film.[3] The case remained unresolved when Lutz died in May 2006.

James Christopher of The Times observed, "There is something pleasurable about the way the family blunders on. The chills are satisfyingly creepy. The gory special effects are lavish and effective. And the wooden house itself is a sinister architectural pleasure. It's total nonsense of course, but I left the lights on that night anyway."
