Some say it's luck 🌝 predicting corners in a football game, but we at AFootballReport find in corners very profitable markets especially in live events 🌝 when odds go very high as the game evolves.So how do we predict corners? Of course as any other football 🌝 prediction and corners are related to a number of pre-match and team factors. First of all we should see the 🌝 type of game we're looking for or the type of game we want to predict. Is it a game with 🌝 a strong favorite or just two equally strengthen teams that play. If it's a game with a strong favorite probably 🌝 we should pay attention to the corners race predictions as strong favorites always keep the ball in possession more than 🌝 the other teams and create more chances as they push forward almost during the whole game. Keep in mind in 🌝 live events that if the score is in favor of the favorite team then this team would not be so 🌝 motivated to create chances and would probably win less corners than in a draw event or from behind.</p><p>Second thing we 🌝 should use when making our corners tips is to see the teams lineups and tactic for the upcoming game. Target 🌝 teams with more offensive tactics and teams that use wingers heavily in their attacks. For example, some good wingers for 🌝 the home team could easily produce more than 10-20 crosses in the penalty area which very often defenders clear in 🌝 corners.</p><p>Corners in the late stage of the game are more likely to happen than in
