TenTrix is a fantastic puzzle game set on a 10x10 pl
aying board. The objective is to fit all the pieces #128516; together in rows
like Tetris, but the pieces don t fall. Instead, you can match rows in any direc
tion and place #128516; pieces where you want.
TenTrix vs Tetris - what's the difference?
TenTrix provides you with a choice of 3 pieces at a #128516; time, an
d you must use all of those pieces before being able to see any more. As the gam
e progresses, #128516; the free space will reduce as you struggle to find the
ideal placement for each block.
Learn the different pieces so #128516; you know what to expect. Knowi
ng what s to come will allow you to plan ahead.
