Introduction to a Michael Burry
Michael Burry, a famous American financier, has a net worth of \$500 million as of 2023.

Over his life, he overcame difficulties and became successful through his intelligence and investment management; and his fund management. Over time, he proved to be a visionary in predicting a financial crisis.

Analysis of Burry's Extraordinary Profits
During the 2008 financial crisis, Burry invested in potentially toxic assets, a move that eventually resulted in extraordinary profits.

Recognizing the significant risk potential of these assets, Burry achieved a personal gain of \$100 million, with a total profit of more than \$700 million for his investors.
